BIOGRAPHY

Some roots can be knotty. One of those is certainly Pixvae. As the hybrid peach palm from which it borrows its name, this unusual group is the result of cross origins, a space where the warm melodies of the Afro-Colombian music meet the energy of rock and eclectic jazz culture.

Confronting the worlds, merging traditions, Pixvae embodies an unsuspected alchemy between jazzcore and currulao: a direction that shakes the perception, upsets the entrails and awakens the imagination. Here, electrical power accompanies sublime trance carrier songs.

LINE-UP

- Margaux Delatour : vocals, guasà
- Alejandra Charry : vocals, guasà
- Romain Dugelay : baritone saxophon, arrangement
- Damien Cluzel : baritone guitar
- Léo Dumont : drums

ALBUM « PIXVAE »

Grolektif | Bongo Joe Records

November 2016

PRESS

« Pure expression of the power of cultural crossing, **Pixvae merges traditions** in an unified scream, a thrilling outburst of contemporary musics. »

- **Kalakuta - nov. 2016**

« Polyrythmic and singular, Pixvae adopts **a nuclear groove** that cannot be fought. Perfectly chopped, almost surgical but also very vivid, the rythmic background constitutes a teeming substrat where are born curious electrical and radiant shrubs. Melting sunny vocals and furious saxophon, several times centenary folklore and contemporary exasperation, dance turns first into a fist fight before becoming an embrace. »

- **Des Gendres à La Cave**

« We are in front of a globalized process of creation and the best way to feel it isn't to think about it but to let the body aknowledge it, from the tip of the senses until trance. »

- **France Culture - émission Ping Pong**

« This young Franco-Colombian band introduces a quite surprising album, an unlikely merging of haunting roots vocals and saturated sounds, at the crossroads of currulao from pacific coast and punk rock. As mystical as bruitist, their electrical trance should make an impression. »

- **Télérama Sortir**
